I just received a telephone call from my client letting me know he received his new hearing aids. He is so thankful for Monrovia Providers Group's help!

He reported that his hearing is significantly better. He is currently in the trial/test run phase and will meet with his doctor next week for additional adjustments. But he is already extremely pleased with the improvement to his hearing. I was already able to better communicate with him over the phone.

Even better news is that the clinic he received them from granted him an additional \$1,000. We were able to raise \$3,200 and we want to thank Monrovia Providers Group for their generous grant.

Another success, thanks Monrovia Providers Group!
